Customer Journey Map:

Phase of Journey	Stage 1 Check Eligibility	Stage 2 Apply for Loan	Stage 3 Get Prediction & Decision
Actions <i>What does the customer do?</i>	- Visits Smart Lender website/app - Enters basic details (income, loan amount, employment, etc.) - Checks eligibility / prediction score - Reviews loan options	- Registers / logs in to the system - Fills detailed application form - Uploads required documents - Reviews & submits application	- System processes the application - ML model predicts loan approval status - Customer views result & reasons - Receives approval / rejection message & suggestions
Touchpoint <i>What part of the service do they interact with?</i>	- Eligibility page / calculator - Input form & sliders - Prediction Score / Results page - Loan information & FAQs	- Registration / Login page - Application form - Document upload section - Submit / Review page	- Prediction engine (backend) - Result page / Dashboard - Approval status & insights - Notifications (email / SMS)
Customer Thought <i>What is the customer thinking?</i>	- Am I eligible for a loan? - What loan amount can I get? - Which option is best for me? - Will I get approved?	- Have I provided the correct details? - Are my documents proper? - How long will it take for approval? - Will this application be accepted?	- What is my loan approval status? - Why was I approved or rejected? - What can I do to improve eligibility? - Can I trust this prediction?
Customer Feeling <i>What is the customer feeling?</i>	- Curious and hopeful - Confused about eligibility factors - Cautious but motivated - Relieved to get instant insights	- Focused but a little anxious - Unsure about document validation - Expecting a quick response - Hopeful for positive outcome	- Relieved if approved - Disappointed if rejected - Satisfied with clear reasons - Confident if suggestions are useful
Process Ownership <i>Who is in the lead on this?</i>	- Product / UI Team – Page design - Data Team – Eligibility rules - ML Team – Model for prediction - Business Team – Loan policies	- Product Team – Application flow - Development Team – Form & Upload functionality - Ops Team – Document verification - Business Team – Policy validation	- ML Team – Model prediction - Backend Team – Processing & rules - Business Team – Final decision policies - Support Team – Customer communication
Opportunities <i>How can we improve this stage?</i>	- Simplify eligibility form - Add nice UI & examples - Show more personalized loan options - Provide guidance for better eligibility	- Auto-fetch data from KYC (if possible) - Reduce number of form fields - Show upload guidelines - Provide real-time form validation	- Improve prediction accuracy - Give clear reasons for decision - Provide actionable suggestions - Enable re-apply / update option easily
